EPSON C6000Ae Label Printer 4" with Auto Cutter

The Epson C6000 series with auto-cutter is a 4-inch print width model that comes in two variants, one with an auto-cutter and a built-in peeler option. The C6000Ae offers speed, control, efficiency and flexibility, allowing you to produce high quality, custom labels time after time.

Printing on-demand allows the C6000Ae to meet the needs of small to medium companies to meet the needs of printing across multiple SKU's without the need to hold large stocks of pre-printed labels.

The full-colour label printer can print labels as little 25.4mm up to 112mm width, making it ideal for labels for eliquid bottles, food and product labels.

KEY FEATURES

Media flexibility: from 25.4mm to 112mm media widths.

Compact and easy-to-use: all operations are conducted from the front, which saves on operation space. Label roll loading is possible from front, rear, right and left.

High resolution with colour adjustment: good print quality, use of ICC profiles in the driver and spot-colour management.

Print any shape of label: thanks to the moveable sensor.

Easy integration: SAP direct driver, Linux Mac - and ESC Label driver support.

Money-saving: no need for pre-printed stock of labels. Print full colour on blank labels

Remote management and maintenance: available through the web interface
